

When the Lord called me into the ministry He gave me the following vision. 🙌 I was on a very large river going upstream to its source, the throne of God. It was very clear water and on this water were mechanical devices. There were gears meshing together, gears tied together with mechanical arms, etc. All these mechanical devices, gears, etc., were functional, moving as they should to drive the other moving parts. These mechanical devices were floating past me, going down stream as I was swimming to the source of the river the throne of God.

God was simply showing me what He was going to teach me by His Spirit. After you have read this booklet you will understand why God gave me this vision and why I call this booklet, *“The Mechanics of Salvation.”*
